# CITY OF HARRISBURG ORGANIZATIONAL CHART

# CITY OF HARRISBURG

## ORGANIZATIONAL STRUCTURE

The City of Harrisburg has a "Strong Mayor/Council" form of government. The Mayor is the full-time Chief Executive Officer, and City Council Members are the separate, part-time Legislative Body. The Mayor possesses the power to veto legislation. The veto would require a two-thirds vote of City Council to override. As the Chief Executive Officer, the Mayor prepares and submits the budget to City Council for review and approval. Organizationally, this provides the Mayor an institutional focus for planning, programming, and developing policy. In fact, the Mayor clearly and directly has the authority and responsibility to determine public policy relating to financial and administrative matters with appropriate oversight by City Council.

On March 19 (the anniversary of the City's Incorporation as a City in 1860), or another date, the Mayor has traditionally provided the "State of the City" address at a public event. This address presents the general state of the City's finances and overall economy and describes the policies established in the fiscal year budget approved by the Mayor and City Council. The Administration is charged with the responsibility of carrying out the Mayor's policies as set forth by the Budget and in Executive Orders issued throughout the year.

The Mayor, as chief executive, has the sole authority to select, direct, and oversee his/her Administration. As head of the Executive/Administrative Branch of government, the Mayor appoints the Business Administrator, whose appointment is confirmed by City Council. The Business Administrator is the Chief Administrative Officer of the City. This position is responsible for overseeing mayoral instruction to directors and deputy directors. With a top-down form of management, department/office directors and deputy directors are fully accountable for departmental operations. This includes overseeing supervisory line management to assure that the City's goals and priorities are met.

The formal organizational structure of the City comprises General Government operations and four departments: Administration, Community and Economic Development, Public Safety, and Public Works. The City's administrative focus is the department. The largest organizational component within a department is the bureau. The structural design of the bureau is closely tied to service output or function. Bureaus provide separation of duties within each department. With responsibilities delegated at such a definitive level, many bureaus can be interpreted as local government programs. A further delineation by division/unit emphasizes the distribution of workloads to achieve a specific output. To evaluate this output, the Budget staff has incorporated policy objectives and performance measurements into the budget document to analyze the effectiveness and efficiency of service delivery. Meeting organizational goals and objectives is the ultimate outcome each department is attempting to achieve.

To account for departmental and office fiscal transactions, the City utilizes the fund basis of accounting whereby all governmental activities are accounted for through a series of distinct funds which include reporting entities to control resources and demonstrate compliance with various legal and budget constraints affecting government. The General Fund accounts for all resources not otherwise devoted to specific activities and it finances many of the basic municipal functions. Other governmental funds include Special Revenue Funds, Capital Projects Fund, Host Fee Fund, State/Federal Grants Fund and Debt Service Fund. The City also has an expendable Trust Fund and one Utility Fund. The budget is organized by fund and is further identified by revenue and expenditure detail.

Some departments combine the operations of more than one fund. The Department of Community and Economic Development combines General Fund operations with Community Development Block Grant (CDBG) Fund operations. Additionally, the Department of Public Works combines General Fund and State Liquid Fuels Tax Fund operations with Proprietary/Utility Fund operations. The Neighborhood Services Utility Fund also comes under the Department of Public Works but is owned and operated solely by the City.

The Offices of General Government, departments, and bureaus listed below are part of the General Fund with the exception of CDBG operations; Neighborhood Services; State Liquid Fuels Tax Fund; and Host Municipality Fees Fund. Further discussion regarding the departments will involve a summary of the roles of management and supervisory personnel.

General Government encompasses eight offices, which include separate offices for elected officials. The Office of City Council is made up of seven at-large elected members headed by the Council President. The City Clerk provides technical and administrative support to City Council.

The Office of the Mayor is the administrative office for all mayoral activities. The Mayor, who is elected at-large, is the highest ranking official. Mayor's Office personnel include a Senior Advisor to the Mayor for Education, Youth and Civic Engagement, and one Senior Assistant to the Mayor, who conducts the day-to-day business of this office.

The City Controller and the City Treasurer are part-time at-large elected officials. Each has an office to provide required public service. Both have full-time deputies who are delegated to carry out daily operations.

The Office of the City Solicitor, also referred to as the Law Bureau, is headed by the City's Chief Counsel, the City Solicitor, who is appointed by the Mayor and confirmed by City Council. This Office ensures that the policies adopted and actions taken by the Mayor and City Council fall within the limitations and authorities prescribed by federal, state, and local statutes and ordinances. Assisting the City Solicitor is the Deputy City Solicitor, Assistant City Solicitor, and support staff.

The Department of Administration works with the Mayor to establish and uphold policy by overseeing the administrative management and supervision of all City departments. The Business Administrator oversees the department directors, deputy directors, and bureau directors to assure the proper administration of their operations, and is responsible for the negotiation of all three collective bargaining contracts. The Finance Director serves as Deputy Business Administrator of Finance, directing the Accounting, Budget, Grants, Risk Management and Purchasing Offices with the assistance of five office managers, and is responsible for administering Debt Service, General Expenses, and Transfers to Other Funds as well as the City's insurance, workers' compensation, affirmative action and loss control programs. The Bureau of Information Technology is headed by a Director and oversees all of the City's information and communication systems. The Bureau of Human Resources, headed by a Director, manages the City's human resource operation which includes payroll processing, maintenance of personnel records, recruitment, and administering the City's benefits programs. The Bureau also participates in the negotiation of collective bargaining contracts. The Bureau of Licensing, Taxation and Central Support, headed by a Director, is responsible for the billing and processing of property and mercantile taxes and utility revenue, as well as collection activities on delinquent accounts. This bureau is also responsible for the duplicating center.

The Department of Community and Economic Development is headed by a Director, who oversees all efforts to maintain and improve our neighborhoods and promotes business and residential development throughout the City, and is accountable for all CDBG Programs. This department has five Bureaus: Director's Office; the Bureau of Building and Housing Development; the Bureau of Business Development, the Bureau of Parks and Recreation, and the Bureau of Planning

The Department of Public Safety consists of the Bureaus of Codes, Police and Fire. The Mayor is the Director of this department. Although the Police Chief and Fire Chief attend the Mayor's cabinet meetings, they also meet separately with the Mayor and the Chief of Staff/Business Administrator weekly to discuss and address current public safety issues.

The Bureau of Police is headed by the Commissioner, Deputy Police Chief and a Captain. These positions are all classified as management. Uniformed officers under the rank of captain are not classified as management personnel. Lieutenants, sergeants, and corporals fulfill supervisory roles. The Deputy Police Chief and Captain head the Uniformed Patrol, Criminal Investigation, and Technical Services divisions. Within these divisions, additional organizational components exist. Several of these sections or units carry out specified police activities. The variety of police operations and the number of approved personnel make it the largest and most complex bureau in the City's organization. The Police Accreditation Program accounts for some of the structural delineations in this bureau because many stipulations for accreditation require appropriate separation of duties.

The Bureau of Fire, headed by a Fire Chief and a Deputy Fire Chief, maintains three fire houses and a large complement of fire fighting apparatus with full-time personnel to support these facilities. Other personnel are uniformed firefighters, some of whom are assigned to specific details such as fire safety and fire inspection.

The Department of Public Works consists of two General Fund bureaus, one Utility Fund, and two Special Revenue Funds: Office Traffic and Engineering; Vehicle Management; Neighborhood Services Fund; the State Liquid Fuels Tax and Special Projects Reimbursement Funds. Some of the services provided by the Department of Public Works require a twenty-four hour, seven-day-per-week schedule. The crucial utility infrastructure services which are maintained around the clock include traffic signal engineering and general management of City streets in the event of an emergency. The Director oversees the entire operation of Public Works and serves as an advisor to the Mayor regarding any serious conditions, thus promoting a concerted effort within the Administration to cope with unforeseen problems. The Bureau of Parks Maintenance, which maintains the City's parks and other public open spaces, was merged into the Public Works portfolio in 2012.

The Public Works Director is assisted by a Deputy Director. The deputy serves as the Deputy Director for Public Works Operations and is primarily responsible for the operation of Neighborhood Services and directly supervises the work and sanitation crews. The Bureau of Vehicle Management, managed by the Fleet Manager, services all City vehicles and vehicular equipment.

The Office Traffic and Engineering, headed by the City Engineer, provides professional engineering services for the maintenance of City streets and utility systems. The Office also ensures the construction of City streets and utility systems are in accordance with City ordinance, state laws, and sound engineering practices. This office also maintains 91 signalized intersections, streetlight repair, and the installation of all traffic control signs as well as the City's GIS System and the official real estate registration for the City. The City Engineer coordinates efforts between Capital Region Water and the City on all issues related to water and sewerage system operations and also supervises the staff charged with the upkeep of the City Government Center Complex.

# **BUDGET AND FINANCE**

## **SCOPE OF THE BUDGET**

The budget for the City of Harrisburg is a multifaceted document that expresses spending policy for the fiscal year, illustrates a resource allocation plan for the Administration to implement, describes the services provided, and provides a means of communication between citizens and elected officials.

The budget spells out a management strategy through specific objectives designed to provide the best services at the most efficient cost. With regard to the delivery of services, these objectives must produce measurable results as key indicators of the effectiveness and efficiency of government policies and programs. Programs must be evaluated every year to determine their legitimacy since limited resources must be allocated between existing programs and the need for new ones. Also, the success of programs and the efficiency with which policy goals are met constitute two performance measures by which managers are evaluated for tenure and annual salary increases.

Interplay between elected officials and input from citizens via budgetary hearings and public access to the budget, further enhances the democratic process involved in the public programming and financing. Elected officials, who experience a wide range of pressures and competing interests, must take the initiative to hold the line on budget growth. As the chief executive, the Mayor is at the center of the budgeting process, commanding a comprehensive perspective on disparate interests. It is the Mayor who takes the lead in determining budgetary policies within an environment of competing priorities and limited local government resources. City Council then examines the Mayor's proposed budget and has the opportunity to make amendments before approving it in final form.

In summary, the budget is a policy instrument, a financial plan, an operations guide, and a communicative device. The true art of budgeting reflects a combination of leadership, independent judgment, competent administration, and cooperation between the various branches of City government.

## **BUDGET PROCESS**

The budget for the City is compiled by the Bureau of Financial Management's Office of Budget and Analysis. The fiscal year for the City of Harrisburg is January 1 to December 31. The actual budget preparation process gets underway in July. One important element of this process is a cooperative effort between the Bureau of Financial Management and Bureau of Information Technology which produces the Position Control Salary Projection reports for all funds. This salary information is vital in preparing personnel projections because it incorporates proposed management increases and bargaining unit contractual increases. Such personnel data greatly assists department directors in determining salary costs for the budget requests.

The City has historically used an incremental budget technique in arriving at the requested figures. Incremental budgeting emphasizes changes in the costs of providing City services based on competing priorities. To evaluate these priorities, department directors/bureau chiefs examine historical trends of line-item costs using a three-year cost analysis to determine the needs of the department or office for the forthcoming year. The Office of Budget and Analysis reviews all requests for accuracy and completeness. This step usually occurs around the beginning of September. The Office of Budget and Analysis prepares the revenue projections for presentation to the Mayor, who evaluates the budget gap between revenue projections and expenditure requests. The Mayor meets with the Budget staff and conducts follow up meetings with Departmental Directors, Bureau Chiefs and other staff to determine the most viable means to balance the budget. Generally, multiple lengthy sessions over a period of 2 months are required before the budget is balanced and decisions regarding revenue and expenditure proposals are incorporated into the proposed budget document.

Based on the City's Administrative Code, the Mayor shall, not later than the month of November, require all department heads to submit requests for appropriations for the ensuing budget year, and to appear before the Mayor, the Business Administrator or Deputy BA at a public hearing, on the various requests, where each department and bureau directors substantiates their expenditure projections and justifies their requests

Pursuant to the City's Administrative Code, the Mayor's Proposed Budget is presented to City Council at the last legislative meeting in November, at which time the document becomes available to the public.

During Budget and Finance Committee meetings, set by City Council, all offices/departments present to Council an estimate of the revenues and expenditures required to provide public services during the ensuing fiscal year.

City Council then makes appropriations and adopts the budget by ordinance no later than December 31. During the month of January following a municipal election, however, City Council may amend the budget with proper notice for public inspection of the proposed budget amendment. Any amended budget ordinance must be adopted by City Council before the 16th day of February. Within 15 days after the adoption of the budget ordinance, a copy of the same must be filed with the Commonwealth of Pennsylvania, Department of Community and Economic Development.

**REVENUE PROJECTIONS**

Using actual and projected data, various analyses are performed by the Bureau of Financial Management to project revenues. Revenue estimates are *mostly* based on three different projection methods which incorporate growth rates over the previous three years, current year receipts, and collection rates where applicable, and important input from department directors, as well as known variations in specific line item projections. Each projection method is tested against actual prior year revenues to determine validity. This validity test is conducted at the revenue line-item (detail) level, and only the projection methods deemed valid are utilized. In addition, unusual circumstances and one-time revenue sources are given appropriate consideration.

## REVENUE PROJECTION METHODS

<b>Method 1</b>	2017 Actual Revenues at September 30, 2017 / 9 months x 12 months
Explanation	A monthly average of current year revenues is calculated based on nine months of receipts, which are then annualized to project current year revenues. Based on revenue trends and this method of projection for 2016 revenues, 2017 revenues are projected.
<b>Method 2</b>	2017 Actual Revenues at September 30, 2017 / (2016 Actual Revenues at September 30, 2016 / 2016 Actual Revenues at December 31, 2016)
Explanation	A percentage of 2016 revenues are determined from revenue receipts at September 30, 2016. The 2017 actual revenues at September 30, 2017, are divided by the percentage collected at September 30, 2016, to project revenues for 2017. By reviewing revenue trends in conjunction with this method of projection for 2017 revenues, the 2018 revenues are projected.
<b>Method 3</b>	Percentage of 2016 Revenue Budget Collected at December 31, 2016 x 2017 Budget
Explanation	2017 revenues can be projected by multiplying the percentage of 2016 Budget which was collected at December 31, 2016, times the 2017 Budget. By reviewing the historical actuals to budget ratios, assumptions can be determined to assist in 2018 revenue projections.

## PERFORMANCE MEASUREMENTS

A Performance Program Budget (PPB) system utilizes specific program objectives to produce a desired output. The City currently does not present a formal programmatic budget; however, many aspects of the existing budget emulate the strategy of PPB. A program is a primary function of government which identifies clearly the delivery of a particular service to the taxpayers. The bureaus, divisions, and units actually represent individual City programs. An important exercise in preparing a PPB is determining performance measurements to meet specific program objectives.

The purpose of preparing performance measurements is to quantitatively determine the effectiveness and efficiency of departmental programs. The budget is the resource allocation plan for the City, and it identifies the financial input necessary to meet departmental objectives. Performance measurements, or indicators, measure the level of output against the input of budgeted funds. The end result should be to minimize the resources or dollars utilized to achieve a specified level of output.

From a policy standpoint, these measures can provide data to decision-makers to assist them in providing better services to citizens at the least possible cost. They also can provide direction in appropriating available resources, identifying areas of service which may require more resources, and addressing strengths and weaknesses in achieving the objectives of the services being provided.

Performance measurements are based on a management objective established by the department director. These measurements concentrate on the performance of the entire bureau or division, not on an individual's performance. The activities measured are those required to meet the overall objective of the department/bureau. If the measured activity achieves most of its objectives and receives a highly satisfactory rating, then it is considered to be effective.

The 2018 Approved Budget does not include data measuring a department's performance as the 2015, 2016 & 2017 actuals and 2018 projected measurement data was not complete before the preparation of this document.

Since the City's management reserves the right to establish goals and objectives to determine the cost of service delivery, quantitative analysis of City services assists management in providing the best possible service at the least possible cost. It is hoped in the future that citizen surveys can become part of performance measurements to determine taxpayer satisfaction. Given the limited resources of time and staffing, such a survey is currently impractical. To some degree, however, the election process itself is an indication of taxpayer satisfaction.

## **BUDGETARY ACCOUNTING AND CONTROLS**

A City Council ordinance establishes the annual budget for the General Fund, Special Revenue Funds, Debt Service Fund, and Proprietary Funds. Budgets for all funds are prepared on a cash basis with respect to revenues and on an items vouchered basis with respect to expenditures. Some Special Revenue Funds are exempted from legally adopted budgetary requirements, such as Grants Fund, Capital Projects Fund, and Expendable Trust Funds.

Grant programs accounted for in the Grant Programs Fund are administered under project budgets determined by contracts with state and federal grantor agencies. Effective expenditure control is achieved in the Capital Projects Fund through bond indenture provisions and project budgets. Control over spending in the Expendable Trust Fund is achieved by the use of internal spending limits.

The administration may authorize budgetary transfers up to \$20,000 between major category line items. However, no transfers shall be permitted into or within any personnel line-items to augment any individual wage or salary allocation previously established by City Council for any position without City Council approval, except to accommodate payments to employees as required under applicable laws or collective bargaining agreements. City Council approval is required for transfers in excess of \$20,000 along budgetary major category line-items. In the absence of budgeted financing, City Council may approve a supplemental appropriation from unappropriated fund balances; or from a new, unanticipated and unbudgeted revenue source(s) received during the course of the budget year. There were supplemental appropriations enacted during 2017.

Appropriations are authorized by ordinance at the fund level with the exception of the General Fund, which is appropriated at the functional office or department level except for the Office of Administration, which has separate budgets for administration and general expenditures. Appropriations are further defined through the establishment of more detailed line-item budgets.

### Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the governmental and proprietary fund types. Encumbrances outstanding at year end do not constitute expenditures or liabilities, but are re-appropriated in the succeeding year. The City records such encumbrances as reservations of fund balance in governmental funds which have fund balances at year end. Encumbrance accounting is used in proprietary fund types as a tool for budgetary control, but reserves are not reported. The subsequent year's appropriations provide authority to complete the transactions as expenditures.

## **FINANCIAL INFORMATION**

The management of the City is responsible for establishing and maintaining an internal control structure designed to ensure that assets are protected from loss, theft, or misuse and that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

### Independent Audit:

The City's Administrative Code requires an annual independent audit of the books of account, financial records, and transactions of the City by an independent certified public accounting firm. In addition, various bond indentures also require such an audit.

In addition to meeting the requirements set forth above, the audit has also been designed to comply with the Single Audit Act of 1984 and related OMB Circular A-133. The independent auditor's report on the basic financial statements, along with the combining and individual fund statements and schedules, is included in the financial section of the City's Comprehensive Annual Financial Report. The independent auditor's reports related specifically to the Single Audit are included in a separately issued single audit document.

#### Single Audit:

As a recipient of federal and state financial assistance, the City is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. The internal control structure is subject to periodic evaluation by management and internal audit staff of the City.

As part of the City's Single Audit, tests are made to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs and the City's compliance with applicable laws and regulations.

#### Audit Committee:

During 2007, the City of Harrisburg established an Audit Committee to provide independent review and oversight of the City's financial reporting processes, internal controls, and annual audit. The City's independent auditor now reports directly to the Audit Committee, versus management as in prior years. The Committee is made up of five voting members and the City Council Budget and Finance Committee Chair, or his/her designee, as an ex officio sixth non-voting member. Three members must be well-versed in accounting procedures and one member must be a CPA. No City employee may serve as a member of the Committee, with the exception of the ex-officio Budget and Finance Chair or his/her designee.

#### Cash Management:

The City's current investment policy is to minimize credit and market risk while maintaining a competitive yield on its portfolio. All cash which is temporarily idle is invested in interest bearing demand deposits, repurchase agreements, or statewide money market funds, thereby increasing the average yield on idle funds. A significant portion of the City's cash and investments is maintained in bank trust accounts under the management of trustees.

An ordinance of City Council requires that all deposits be held in insured, federally regulated banks or financial institutions and that all amounts in excess of federal insurance be fully collateralized in accordance with a state statute which requires banks to pledge a pool of eligible assets against the total of its public funds on deposit.

#### Basis of Accounting:

Although the annual budget is prepared on a cash basis with respect to both revenues received and expenditures disbursed for all funds, the Governmental Funds and Expendable Trust and Agency Funds are reported on the modified accrual basis of accounting for financial statement purposes. Revenues of these funds are recognized in the year in which they become both measurable and available within 60 days after year end to pay current year liabilities. The major revenue sources accrued by the City include real estate taxes, local income and services taxes, intergovernmental revenue, departmental earnings, and investment income. Revenues from other sources are recognized when received. Expenditures are generally recognized in the year the related fund liability is incurred. Principal and interest on general long-term obligations are recognized when due. Prepaid items and inventory purchases are reported as expenditures in the year the items are used. Expenditures for claims, judgments, compensated absences, and employer pension contributions are reported as the amount accrued during the year that normally would be liquidated with expendable available financial resources.

The accrual basis of accounting is utilized by proprietary fund types for financial statement reporting purposes. Under this method, revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred.

# BUDGET SUMMARY

## RESOURCE ALLOCATION

The following Resource Allocation chart lists resources and appropriations for each fund and provides a grand total for all City resources. The accounts of the City are organized on the basis of fund(s), each of which is considered to be a separate accounting entity. These funds are the General Fund, Special Revenue Funds, Debt Service Fund, and utility funds. The City of Harrisburg has established the following utility fund: the Neighborhood Services Fund. Although each fund is accounted for independently, the proper cooperation and interaction among all funds contribute to the overall effective and efficient management of City government.

### GENERAL FUND

The General Fund is used to account for resources traditionally associated with government which are not required legally or by sound financial management to be accounted for in another fund.

### SPECIAL REVENUE FUNDS

Special Revenue Funds are defined as those funds used to account for proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

### STATE LIQUID FUELS TAX FUND

The State Liquid Fuels Tax Fund is used to account for State aid revenue for maintaining, lighting, building, and improving City roads and bridges in accordance with policies and procedures of the County Liquid Fuels Tax Act of 1931 and the Liquid Fuels Tax Act 655 of 1956 of the Commonwealth of Pennsylvania.

### HOST MUNICIPALITY FEES FUND

The Host Municipality Fees Fund is used to account for host municipality benefit fees received for critical environmental projects and related administrative costs, as mandated by Act 101 - The Municipal Waste Planning, Recycling, and Waste Reduction Act.

## OFFICE OF CITY COUNCIL

Harrisburg's City Council is the Legislative Branch of City government. The City Council consists of seven members who are elected at large. The City Council President is elected by the Council members and presides over the Council meetings. In the event of illness or absence, the Vice-President presides over the meetings. City Council considers and evaluates legislative concerns through a study committee structure consisting of committees on Administration, Budget & Finance, Building & Housing, Community & Economic Development, Parks & Recreation, Public Safety, and Public Works. City Council also confirms all department directors and certain other Mayoral appointees. Council is also required, by the Third Class Optional City Code of Pennsylvania, to pass an annual budget by December 31 of each fiscal year.

## OFFICE OF THE MAYOR

The Mayor is the Chief Executive Officer of Harrisburg's government. The Mayor is an elected official, is full-time, and is the sole appointing authority of all department and office directors and Mayor's Office staff. Department heads must be confirmed by a majority of City Council before appointment is permanent. Senior City government officials, including department and office heads, comprise the Mayor's Cabinet. The Mayor has broad discretionary, executive, and administrative authority under the provisions of the Third Class Optional City Code of Pennsylvania, the City's Charter, and the Codified Ordinances of the City of Harrisburg. The Mayor also heads the Executive/Administrative Branch of City government. The Mayor is automatically a member of several public or quasi-public boards of directors, including the Tri-County Planning Commission and the Harrisburg Area Transportation Study Group (HATS). The Mayor is the sole appointing authority of members of most boards, commissions and task forces, with City Council confirmation required for many of these appointees.

The Mayor has broad policy-making authority, and by Executive Order or other action, can direct the use of municipal resources, including the setting of priorities for the use of resources. The Office can assume an initiative role in matters, projects, and policies of a Citywide or regional nature. In the event of a civil emergency or natural disaster, the Mayor, under State and City laws, has the sole authority to declare a state of emergency and to direct or redirect governmental and other response to such events. Administratively, the Mayor has contracting authority and no valid or binding contract involving the municipal government exists without the Mayor's and City Controller's signatures.

## BUREAU OF FINANCIAL MANAGEMENT

The Bureau of Financial Management is responsible for the overall fiscal management of the City. This includes the management of all funds, accounting for all assets and financial activity, the production of all financial documents, and the administration of Debt Service, General Expenses, and Transfers to Other Funds. This bureau also aids in the administration of the City's three pension plans. For the Bureau to complete these tasks, it is organized into four offices. They are Accounting, Budget and Analysis, Purchasing, and Grants Management.

The Accounting Office manages the cash flow and accounts payable functions for the City. This office also oversees the City's computerized accounting and financial reporting systems, and is responsible for preparation of the annual audit and development of the Comprehensive Annual Financial Report.

The Office of Budget and Analysis is responsible for the preparation, development, distribution, and monitoring of the City's annual budget which is submitted to Council at the last Legislative Session in November. This office also prepares the Mid-Year Fiscal Report, which highlights the financial status of all budgeted funds as of June 30th of the current year compared to June 30th of the previous year. The Mid-Year report also projects the financial performance for the current year-end.

The Purchasing Office is responsible for overseeing the procurement of most City materials, supplies, and services. All procurement documentation is compiled and stored within the Purchasing Office. Furthermore, this office must assure fair and equitable distribution of City contracts and agreements for capital and non-capital products and services, including the preparation and advertising of public bids and the awarding of those contracts. This office also administers insurance claims and collection activities.

The Grants Management Office assists with grants administration on a City-wide basis, including grants writing and periodic reporting.

## BUREAU OF HUMAN RESOURCES

The Bureau of Human Resources is comprised of two primary functions: Human Resources Administration and Payroll. Human Resources oversees and administers a wide range of centralized personnel services for City Government including, but not limited to: recruitment for management positions; testing, screening, hiring and processing individuals to fill vacant bargaining-unit positions; enforces civil service rules and regulations and administers the promotional processes, where applicable, for the Harrisburg Police, Fire and Non-Uniform Civil Service Commission; unemployment compensation matters; conducts new hire orientation sessions and exit interviews; labor relations matters; benefits administration, including management of health care for active employees and retirees, pension plans, and leave benefits; worker's compensation program; and drug and alcohol testing. The Bureau assists the Business Administrator and the department directors in developing job descriptions for management and bargaining-unit positions.

Payroll is responsible for processing the City's biweekly payroll, maintaining payroll records and managing federal, state and local tax deductions as well as other mandatory payroll deductions and voluntary contributions. Staff is also responsible for ensuring all withholding reporting requirements are met. Staff works closely with all timekeepers to ensure smooth and accurate payroll processing. Staff also effectuates scheduled salary increases for bargaining-unit employees and merit pay increases based on performance evaluations for management personnel.

## BUREAU OF PLANNING

The Bureau of Planning promotes development and reinvestment in the City of Harrisburg in order to preserve neighborhoods while fostering economic development. The Planning Bureau reviews development proposals to insure that new development is consistent with the City's Comprehensive Plan as well as the Zoning Code and the Subdivision and Land Development Code. The Planning Bureau provides staff support to three citizen land use boards: the Harrisburg Planning Commission, the Zoning Hearing Board, and the Harrisburg Architectural Review Board (HARB).

In addition to its core responsibilities of current and long-range planning, the Bureau is also the primary contact for Census preparation efforts as well as land development review, architectural compliance, and assistance in the preparation of maps to support planning efforts.

The Planning Bureau's most significant project is the completion of the new Zoning Code for the City of Harrisburg and completion of the Historic District Design and Preservation Guide. The Bureau is also assisting with the completion of a revised City Comprehensive Plan.

## BUREAU OF CODES

The Bureau of Codes is responsible for the enforcement of building construction, electrical standards, plumbing, health and sanitation, and property maintenance codes for residential and commercial structures.

The Bureau processes all permits relating to building construction, electrical and plumbing work, as well as assisting with zoning compliance. The Bureau also issues licenses for electricians, plumbers, and rooming houses. The building, electrical and plumbing inspectors perform progressive inspections on new construction, rehabilitation, and alteration projects.

The Building Inspector enforces the building codes on all construction activity for new construction and rehabilitation work on all commercial and residential structures. The Codes Enforcement Officers inspect for code violations in existing structures and vacant lots, including but not limited to, high grass and weeds, sanitation, plumbing, heating, electrical, vector problems and structural violations.

The Bureau ensures compliance with federal guidelines by regulation development in floodplains. Promotion of safe flood measures and preventative actions to decrease damage are sent to property owners, lenders and insurance agents. Through the Community Rating System these steps have rewarded property owners in the Special Flood Hazard Areas a 20% savings on flood insurance premiums annually.

## BUREAU OF FIRE

The Harrisburg Bureau of Fire exists to serve the City of Harrisburg, and when needed, the greater Harrisburg metropolitan area by providing effective fire suppression, emergency medical services, tactical rescue, urban search and rescue, water rescue, hazardous materials response, fire prevention, codes enforcement, and public safety education.

The Bureau of Fire is a team of highly motivated diverse individuals dedicated in common to public interaction and providing efficient services. This involves the use of modern fire and rescue equipment, integrated up-to-date training and safety techniques, computer technology, and cooperation with surrounding fire, rescue, and EMS agencies to provide the best service available by making public safety and protection our perpetual primary priority.

Effective suppression of fires involves arriving at the scene of an emergency quickly so the persons can be rescued and the fire can be attacked to prevent the spread of fire. It is the goal of the Bureau of Fire not to allow a fire to extend beyond the room, floor, or building of origin that is found involved in fire when arriving on scene. To effectively carry out our mission, the Bureau of Fire responds from three fire stations with five pieces of front line apparatus that are staffed 24/7 by at least 15 firefighters and fire officers.

The Bureau also maintains a fleet of boats; water rescue related tools and equipment, as well as highly trained staff. These resources provide advanced capabilities to deal with incidents on the Susquehanna River and its islands, as well as the small lakes and streams that are contained within the borders of the City. The water craft are also deployed to assist stranded motorists during street flooding events.

The Bureau of Fire, by providing effective emergency medical services, has fostered a close working relationship with Pinnacle Health's Community LifeTeam to assist in providing prompt EMS care to the citizens and visitors to our City. All Bureau of Fire apparatus is equipped with Automated External Defibrillators (AED's) and is able to provide prompt response. All new Fire Bureau recruits are required to maintain EMT status for the duration of their employment.

The Bureau of Fire is proactive in teaching fire prevention and preventing fires and other emergencies before they occur. The Fire Prevention Officer interacts on a daily basis with schools, daycares, and businesses to provide quality fire prevention materials and training. The Fire Inspector conducts fire inspections for the vast array of businesses in the City by taking a proactive approach. The Fire Inspector also initiates inspections from complaints received from residents and business owners, and works collectively with the Bureau of Codes to successfully mitigate hazardous conditions.

The Bureau of Fire is also responsible for effectively running the City's Emergency Operations Center during natural and man-made disasters, coordinating and running the Rescue 1 program, providing manpower for the PA Urban Search and Rescue Task Force, administering the Juvenile Fire Setter Intervention Program, maintaining an active role in the South Central PA Counter Terrorism Task Force, actively participating with the Dauphin County Hazardous Materials Response Team, as well as many other required and fiduciary responsibilities.

## BUREAU OF VEHICLE MANAGEMENT CENTER

The Bureau of Vehicle Management is responsible for the administration, maintenance, and repair of the City's vehicular equipment fleet. The fleet consists of over 300 vehicles and pieces of equipment ranging from tractor trailers, articulated wheel loaders, fire apparatus, motor cycles and police vehicles, to small equipment such as tractors and lawnmowers.

The administration of the Bureau includes: preparation of the annual budget submission, equipment specifying, titling, licensing, maintaining of state inspection records, surplus disposal, and the scheduled maintenance and repair of all City-owned vehicles. Other associated activities include, but are not limited to, the maintaining of automated reports/records; a parts and supply inventory; a fuels/lubricants management program; and the testing and evaluation of programs, such as alternate fuels, to determine the feasibility of adoption for City operations. The Bureau has also adopted a new program to keep computerized records to help maintain efficiency in the fleet.

**An Ordinance** amending the Codified Ordinances of the City of Harrisburg, Title V, Licensing and Taxation, Part V, Real Estate Taxes, Chapter 5-501, Property Tax, by establishing for the year Two Thousand Eighteen (2018) a tax levy on land and improvements and providing for the distribution of taxes levied and assessed and providing for a tax rebate for the difference between the tax due and attributable to the year Two Thousand Eighteen (2018) tax levy over the tax due and attributable to the year Two Thousand Six (2006) tax levy for qualifying senior citizens.

**WHEREAS**, Ordinance 26 of 2006 established a base tax rate levied and assessed against all taxable land and improvements thereon; and

**WHEREAS**, The City of Harrisburg recognizes the severe economic plight of certain senior citizens who are property owners with fixed incomes who are faced with rising costs of living and constantly increasing tax and inflation burdens which threaten their homesteads and self-sufficiency; and

**WHEREAS**, The City of Harrisburg considers it to be a matter of sound public policy to make special provision for property tax rebates to that class of senior citizens who are real property taxpayers and whose household income is within the poverty guidelines as determined by the United States Department of Health and Human Services; and

**WHEREAS**, The City of Harrisburg wishes to provide property tax rebates to that class of senior citizens who qualify for same.

**NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF HARRISBURG, AND IT IS HEREBY ENACTED BY AUTHORITY OF THE SAME**, as follows:

For purposes of computing said tax, the valuation of said land as taken from other books and records of the Dauphin County
